

PROCENEFA (SERIES C)

Polished, Brushed Finish and PVD Colored
(stainless steel AISI 304 and 316)

KALLOS PROCENEFA (KSKC) is an STAINLESS STEEL Skirting. It is ideal for use where a modern, hi-tech finish is required. It can be used with most types of floor covering including carpets, resilient flooring, stone, wood, wood laminate and ceramic tiles, ad the apality of back wairing.
The profile is designed to sit on top of the floor covering in order to provide a neat finish. Available in Matt Silver, and with matching finishing trims for neat installation: End caps, junctions and internal/external corners.
KALLOS Stainless Steel profiles Supplied with protection film for added protection, before, during and after application - as standard.

6B Copper Brushed

General Cleaning and Maintenance

» Do not use steel wool or sandpaper, or mineral acids, bleaches or chlorine cleansers.

» Do not add chlorine to your pool right next to your stainless steel. Add it as far away as possible.

» Do not store stainless steel in a closed area underneath steel beams to avoid corrosive condensation from dripping onto to the equipment and leaving brown spots.

» Do not store stainless steel where it will attract and retain moisture or airborne contaminants and do not store equipment in the same areas as chlorine.

» Rinse off stainless steel when exposed to Chlorine frequently with fresh water to wash away accumulated chemicals such as chlorine and wipe dry with a clean cloth. Especially try to clean immediately after use around chlorides (chlorine powder, seawater, etc.)

» Clean frequently with a cleaner and water. Any cleaner that is safe for glass is usually safe for stainless steel. Inspect frequently, if you notice discoloration, tarnish or water stains, increase the frequency of your fresh water rinses to reduce accumulated chemicals.

» Remove any rust spots as soon as possible to prevent irreversible pitting.

» Occasionally clean with borax, soda ash, or a non-abrasive commercial cleanser and water.

» Stubborn Stains may be removed with a magnesium oxide, ammonia and water paste.

Polished and Brushed PVD Finish Stainless steel

AISI 304 and 316 with protection film - bar length 2.44 meter, H (60 to 100)

*Size can be customized **

ARTICLE	H(mm)	L (m)
KSKC-XX-60	60	2.44
KSKC-XX-80	80	2.44
KSKC-XX-100	100	2.44

» When ordering specify the stainless steel grade as 304 or 316 for example: KSKC-XX-60-XXX - the XXX stand as the grade of stainless steel.
